C L E A N   F O R M

Please AMEND the claims as follows:

- B1 1. (AMENDED) A method for establishing a subscription to a periodical, comprising:  
receiving an identifier that indicates a non-subscription purchase of a periodical;  
determining if there is a subscription price stored for the periodical; and  
outputting an offer for a subscription to the periodical if there is a subscription price  
stored for the periodical.

- B2 20. (TWICE AMENDED) A method for establishing a subscription to a periodical,  
comprising:  
optically scanning, at a POS terminal, a bar code that indicates a periodical;  
determining an issue price of the periodical;  
determining if the POS terminal can initiate a subscription for the periodical;  
outputting an offer for a choice between an issue of the periodical and a subscription to  
the periodical, the offer including the issue price and the subscription price;  
receiving a response to the offer, the response indicating one of the issue and the  
subscription; and  
adding the subscription price to a purchase price if the response indicates the  
subscription.

- B3 48. (AMENDED) A computer readable medium encoded with processing instructions for  
implementing a method performed by a computer for establishing a subscription to a periodical,  
the method comprising:  
receiving an identifier that indicates a non-subscription purchase of a periodical;  
determining if there is a subscription price stored for the periodical; and  
outputting an offer for a subscription to the periodical if there is a subscription price  
stored for the periodical.
